## § 7212. Public Officials Who Manage Public Investments.

The following positions are not covered by the conflict-of-interest code because they must file under Government Code Section 87200 and, therefore, are listed for information purposes only:

Members of the Board of Directors General Manager Chief Financial Officer Treasurer Assistant Treasurer Budget and Treasury Manager

An individual holding one of the above listed positions may contact the Fair Political Practices Commission for assistance or written advice regarding their filing obligations if they believe that their position has been categorized incorrectly. The Fair Political Practices Commission makes the final determination whether a position is covered by Section 87200.

## § 7213. Consultants and New Positions.

A "designated position" includes an individual serving in a new position in which the individual makes or participates in the making of decisions and an individual who is a consultant as defined in FPPC Regulation 18701. These individuals must file under the broadest disclosure set forth in this conflict-of-interest code. However, the Ethics Officer may determine disclosure that is tailored to the range of duties or contractual obligations for such individuals as long a clear explanation of the duties and disclosure requirements is provided in writing. Individuals serving in a new position must file under this provision until the position is added to this conflict-of-interest code. The written determination is a public record and shall be retained for public inspection in the same manner and location as this conflict-of-interest code. (Gov. Code Section 81008, 82019; FPPC Regulations 18219 and 18734.)

Consultants providing the services of designated positions shall be included in the list of designated employees and shall disclose pursuant to the broadest disclosure category in the code subject to the following limitation:

The Ethics Officer may determine in writing that a particular consultant, although a "designated position," is hired to perform a range of duties that is limited in scope and thus is not required to fully comply with the disclosure requirements described in this section. Such written determination shall include a description of the consultant's duties and, based upon that description, a statement of the extent of disclosure requirements. The Ethics Officer's determination is a public record and shall be retained for public inspection in the same manner and location as this conflict-of-interest code. (Gov. Code Sec. 81008.)
